EXPLORE FEATURES OF FACTORYTALK VIEW SE

SEPTEMBER 29 - JOIN US ONLINE FOR THIS VIRTUAL LAB

OVERVIEW

This hands-on lab provides you with an opportunity to explore introductory features of FactoryTalk® View Site Edition (FactoryTalk View SE).

If you are new to FactoryTalk View Site Edition and FactoryTalk ViewPoint®, this hands-on lab allows you to learn about the basic capabilities and features. You will build a simple application from the beginning. Topics include creating an application, adding displays, working with tags and animations, basic alarming, trending, and as a bonus – mobility. This lab will give you a solid understanding of how a FactoryTalk View SE HMI application works, and how you can extend it to mobile devices.

WHAT YOU WILL ACCOMPLISH

As you complete the exercises in this hands-on lab, you will gain an understanding of the functionality and capability of FactoryTalk View Site Edition by:

- Creating a new application
- Set up PLC communication
- Creating and importing HMI displays
- Creating display objects
- Animating display objects based on PLC values
- Creating and viewing a client HDMI session
- Creating and configuring PLC based HMI alarms
- Creating trends
- Exploring the application in FactoryTalk viewpoint
